## Report on World Ozone Day 2023

Theme-“Montreal Protocol: Fixing the Ozone layer and reducing climate change”

We observe World Ozone Day annually on 16 September to commemorate the Montreal Protocol on Substances that Deplete the Ozone Layer was accepted during on 16 September 1987. This day encourages everyone to understand the value of protecting the Ozone layer and how the layer is helpful for all living beings. The Ozone layer protects us from harmful UV rays, and it is our responsibility to preserve this layer from the utmost chemical damage.

On this occasion the Department of chemistry, Govt. Degree College, Rampachodavaram invited all the staff and students to the celebrations.

Mr.K.G.Venkatesh, Lecture in Chemistry has given the welcome address of the event.

Dr.N.J.Padmakar babu, In-charge principal, has given opening remarks of the event Other faculty members and students have spoken about importance of ozone, ozone depleting agents, harmful effects due to ozone depletion and how to protect ozone layer.

The grand success of this celebrations is due to the active role played by Faculty member Sri M. Ganesh Lecturer in Chemistry and the team work of the ever supporting staff and students of this college.
